MEMORANDUM

To: New Staff and Students
From: IT Staff
Date: June 4, 2018
Subject: GBLS Computer and Phone Information

Welcome to Greater Boston Legal Services. This packet provides an overview of the computer and phone systems at GBLS. We hope this will help make your computing days at GBLS more efficient, productive and enjoyable.

helpdesk@gbls.org
Questions and requests for technical support are handled by emailing the GBLS helpdesk. Requests are divided among the technical support staff according to area of expertise. If email is not working, ask a secretary on the floor to email for you. Emergencies should not be emailed, you should find a person to help!

MLAC Helpdesk Application Hotline:
Phone: 1-877-435-7716 or 617-367-0798
Email: helpdesk@legalservicesma.org
In addition to support at GBLS there is also a Statewide Computer Use the statewide hotline for answers to formatting documents.

S:\Public\Technology – User How To’s: Step by step instructions by category
Intranet.gbls.org - Frequently Needed Docs
Eligibility Guidelines and most requested “How To’s”
X:\Installs – software you can install on your pc, if the application you need is not in this directory, email the helpdesk and request to have it added.

Data Storage and Backup
When you are added to the GBLS or CASLS network, a folder with your first name initial and last name is automatically created in your unit on the S: drive. Please store all your GBLS documents in this folder. Documents on the S: drive are backed nightly.

All GBLS work related documents: S:\Your Unit\Your name
Documents to share across units: S\Public

Please do not store any documents on your local C: drive.

Fax Services
GBLS uses efax, a desktop faxing service. Instructions are included in this packet.

06/04/18
GBLS Computer and Phone Information
Westlaw at GBLS
Go to www.gbls.org/staff and click on Legal Research.
To obtain a Westlaw ID number, contact John Flynn, Librarian, x1741.

Network Access
Login and Password: Staff, students, and volunteers are assigned a network user name and password to access the GBLS network on and off-site via a secure Internet connection. The password is reset every 6 months and is deactivated on the last day of employment. It is a violation of state law and GBLS policy to share your account information with anyone inside or outside GBLS.

Network Access: Use of Non-GBLS Equipment – Laptop, SmartPhone, PDA
Personal laptops are not permitted to connect to the GBLS network inside the building e.g. do not disconnect a GBLS computer and plug in a non-GBLS laptop. VPN services are available; to request these, email helpdesk@gbls.org. Please do not store GBLS client information on a personal laptop unless the laptop has an encrypted hard-drive.

Smartphones and tablet’s used for GBLS business must have a password.

Network Access: After Hours
Network maintenance is scheduled during off hours. During these times access to documents, printers, email, the internet and other network services are not available to staff. Staff will be notified via email at least 48 hours prior to network being unavailable. Laptops are available during network interruptions.

GBLS technical support is not available after regular business hours.

Technology Add-ons
Boston and Cambridge have a laptop, projectors, scanner, color printer, and digital camera available for work-related staff use. The Boston office has a large screen computer projector and a portable screen.

GBLS wireless network (wifi)
The GBLS wifi network uses three separate names to allow different users to connect with different levels of access. Please do not abuse this network. If usage is too heavy or inappropriate we may need to restrict access or impose additional limits.

GBLS Guest
This network is for guest users. You may access only web sites (HTTP or HTTPS) using this network.
This network is unencrypted and should not be used for anything involving social security numbers, driver’s license numbers, bank account numbers, or medical records. It is provided as a convenience to guests or employees who have not yet attended new employee orientation. Connect to the network GBLS_Guest. Then, enter the 10-digit password (including hyphen) that you obtained from IT staff or from the receptionist on your floor.

06/04/18
GBLS Computer and Phone Information
GBLS Employee
This network is for GBLS employees only. Use of this network is slightly less restricted than the Guest network. However, you may still access only the Internet when using this network and you are subject to the GBLS acceptable use policy.

You must be approved by the IT department to connect to this network. Any laptops connecting must have updated anti-virus protection installed. Users who have access to the VPN already have permission to connect. Other users, send an email to helpdesk@gbls.org for instructions.

Phone and Voicemail Information
When you are assigned an office at GBLS, you receive a phone extension and a voicemail box. The unit secretary can assist you with any questions.
The GBLS Network Standard Applications
GBLS is a Microsoft Windows network. The standard desktop machine runs Windows XP. Each
desktop has direct access to the Internet via a T1 line, multi and single function printers, and the
following supported applications (you may request additional applications via the helpdesk):

<table>

Access Your Voice Mail for the First Time
1. Press the Messages button on your phone.
2. Enter the temp passcode 3724 and press #.
3. Enter your new passcode and press #.
4. Enter the new passcode again and press #.
5. Record your name greeting. (Record your first and last name. This is what callers hear when transferred from an auto attendant.)

Personalize Your Busy and No Answer Greetings
The Busy greeting is heard by callers when Do Not Disturb is active on your phone or when you are on a call and Call Waiting is disabled.
The No Answer greeting is heard by callers when you do not answer a call. The No Answer greeting is played whether you are currently on the phone or choose not to answer while the phone is free.
See instructions under these headings on the opposite page to record your greetings.

Busy Greeting Menu
No Answer Greeting Menu

Access Your Voice Mail from Your Own Phone
1. Press the Messages button on your phone.
2. At the prompt, enter your passcode and press #.

Access Your Voice Mail from Another Phone in Your Group
1. Dial your extension.

*  Return to Voice Messaging main menu
#  Repeat menu

Notes: In an Enterprise Voice Portal, you can send messages to others outside of your group, but not the entire group.
About the Touchscreen
Tap to select and highlight screen items. To scroll, touch the screen, and swipe your finger up, down, right, or left. To go back to a previous screen, tap Back.

Phone Views
Your phone has four main Views: Home, Calls, Active Call, and Lines View (the default).
To change Views:
- For Home View, press Home.
- From Home View, press Lines to display either Lines, Calls, or Active Call View.
- To switch between Lines View and either Calls or Active Call View, swipe the screen.

Home View
Home View displays icons you can tap to access phone functions.

Touch and hold Lines to display fewer icons. Touch and hold or swipe the screen to display more icons.

From Home View, tap the phone Line to display your phone Lines and Favorites—contacts you can dial by tapping their name. To go back, tap Close.

Lines View
Lines View displays phone Lines, Favorites, and soft keys.

If your phone is idle, you can:
- Tap the phone Line to access the Dialer.
- Swipe to switch between Lines View and the Browser (if applicable).

Calls View
Calls View displays a list of all your calls.

Call color indicates status:
- Dark green Active call.
- Dark blue Incoming and held calls.
- Bright green Active call is highlighted.
- Bright blue Incoming or held call is highlighted.
Tap a call to highlight it. The soft keys apply to the highlighted call.

Active Call View
If a phone Line has only one call—and it’s active—you can access Active Call View.

Entering Data
Use the onscreen keyboard or the dialpad keys to enter information. To backspace, tap Back.

To use the onscreen keyboard, tap Keypad.
To type with the dialpad keys, press a key repeatedly to view the character options and stop to select.
To type other characters, tap Encoding or Mode. When using the dialpad keys, use the 1, *, 0, and # keys.

About Calls
Only one call can be active at one time.
You can use the handset, speakerphone, or headset for calls. During a call, you can change modes by picking up the handset, or by pressing Hold or Transfer.

Tip: Returning to Your Calls
If you navigate away from your call(s), tap to see Active Call or Calls View again.
### Placing Calls
Pick up the handset, or press  or  . Enter the phone number, and tap .
From Lines View: Tap the phone Line, enter the phone number, and tap .
From Home View: Tap New Call, enter the phone number, and tap .

### Answering Calls
Press  or tap Answer, pick up the handset, or press  .
To answer a new call while on an active call, tap Answer. To transfer, tap  .

### Ending Calls
To end an active call, replace the handset, press  , or press  . Or, tap End Call.
To end a held call, navigate to Calls View and highlight the held call. Tap Resume, and tap End Call.

### Holding Calls
From Lines, Calls, or Active Call View, tap Hold. If you’re in Calls View, remember to highlight the call first.
To resume a held call, tap Resume from either Lines or Calls View.

### Transferring Calls
From Lines, Calls, or Active Call View, tap Transfer, and call the other party. When you hear the ringback sound, or after you talk with the other party, tap Transfer.

### Forwarding Calls
To enable call forwarding, tap Settings from Home View, and tap Features > Forward. Tap the forwarding type to enable, type a forwarding number, and tap Enable.
To disable call forwarding, tap Settings from Home View, and tap Features > Forward. Tap the forwarding type to disable, and tap Disable.
To enable per-call forwarding: As your phone rings, tap Forward, enter the forwarding number, and tap Forward.

### Placing Conference Calls
Call the first party. From Lines, Calls, or Active Call View, tap Confrnc. Dial and connect with the other party, and tap Confrnc.
From Lines or Calls View, you can:
- Tap Hold to hold the conference.
- Tap End Call to end the conference.
- Tap Manage to manage each participant (if available).
- Tap Split to end the conference and hold all participants.

### Favorites
Favorites are contacts you call most often. Favorites display in your Favorites list and Lines View. They also display when you tap the phone Line in Home View.
- To view your Favorites list, tap New Call from Home View, and tap Favorites.
- To make a contact a Favorite, navigate to your Contact Directory and tap the contact. Tap Add to Favorites, and tap Yes to confirm.
- To dial a Favorite, navigate to your Contact Directory and tap the contact. Tap Call or call your Favorites list.
- To reorder your Favorites list, Update the contact’s Favorite Index number in the Contact Directory.

### Viewing Recent Calls
To view your Recent Calls list, tap New Call from Home View, and tap Recent.
From the Recent Calls list, tap to sort and order calls, tap to display only certain calls, or tap a call record to call the person.

### Contact Directory
- To view your Directory, tap Directory from Home View. If a Corporate Directory is on your phone, tap Directory from the Directory screen.
- To add a contact, navigate to your Contact Directory and tap the contact. Tap . Type the contact’s information, and tap Save.
- To delete a contact, navigate to your Contact Directory and the tap. Tap , update the contact’s information, and tap Save.

### Listening to Voice Mail
Tap Messages from Home View, and tap Message Center. Tap Connect and follow the prompts.

### Timesaver: Accessing Your Message Center
Tap from Lines, Calls, or Active Call View.

### Muting the Microphone
During a call, press  to other parties can’t hear you. To disable Mute, press  again.

### Using Do Not Disturb
To disable ringing, tap Settings from Home View, and tap Features > Do Not Disturb. Tap Enable or Disable.

### Adjusting Volume
To change call volume, press during a call. To change the ringer volume, press when the phone is idle or ringing.

### Updating Ringtones
To change the incoming call ringtone, tap Settings from Home View, and tap Basic > Ring Type. Tap the ringtone you want.
To set a ringtone for a contact, navigate to your Contact Directory and tap the contact. Tap , update the contact’s ring type, and tap Save.

### Tip: Saving Recent Callers to Your Directory
Tap from Lines, Calls, or Active Call View.
From your Recent Calls list, tap next to the call, and tap Save. Enter additional information and tap Save.

### Tip: What Does a Green Star Mean?
A green star,  indicates a Favorite.

### Tip: What Does a Green Star Mean?
A green star,  indicates a Favorite.
BASIC PHONE FEATURES

Placing Calls

Using the handset:
Pick up the handset, and then enter the phone number. Or, enter the phone number, and then pick up the handset.

Using the speakerphone:
- With the handset on-hook, press any assigned line key, or the New Call soft key. Then, enter the phone number.
- or
- Enter the phone number, and then press the Dial soft key.

Using the optional headset:
- With the headset connected, press any assigned line key, or the New Call soft key. Then, press , and then enter the phone number.
- or
- Enter the phone number, and then press the Transfer soft key.

You can alternate modes by pressing the Headset or Speakerphone keys or picking up the handset.

Ending Calls
To end a call, press the End Call soft key. Or, depending on the mode you are using, Muting the Microphone

press or replace the handset.

During a call, press . Mute applies to all modes. You can hear all other parties while Mute is enabled, but the other parties cannot hear you.

To turn off Mute, press again.

Holding and Resuming Calls
During a call, press or the Hold soft key. The line key flashes red.
To resume the call on hold, press one of the following: , the Resume soft key, or the line key. The line key grows green again.

Redialing Numbers
To call the last number you dialed, press .

Transferring Calls
To transfer a call:
1. During a call, press the Transfer soft key. The active call is placed on hold.
2. Place a call to the party to whom you want to transfer the call.
3. When you hear the ring-back sound or after you speak with the second party, press the Transfer soft key.

You can automatically transfer the call without speaking to the second party. After you complete step 1, press the Blind soft key. Then, complete step 2.

Forwarding Calls*
To enable call forwarding:
1. From the idle screen, press the Forward soft key.†
2. Select the forwarding type you want to enable (Always—to forward all incoming calls; No Answer—to forward all unanswered incoming calls; Busy—to forward calls that arrive when you are already in a call).
3. Enter a number to forward calls to.
4. Press the Enable soft key.

To disable call forwarding:
1. From the idle screen, press the Forward soft key.†
2. Select the forwarding type to disable.
3. Press the Disable soft key.

Speed Dialing
To quickly dial a contact, use the contact’s speed dial index number, or press the contact’s speed dial key (if available).

Using a speed dial key:
>> Press the contact’s speed dial key on the top-right of the phone.

Using a speed dial index number:
>> Press the Up arrow, and then enter the contact’s speed dial index number.

Answering Calls
Using the handset:
>> Pick up the handset.

Using the speakerphone:
>> Press one of the following: , the flashing line key, or the Answer soft key.

Using the optional headset:
>> You can ignore a call by pressing

>> Press the Reject soft key.

Applies to phones running SIP 3.1 or later.

For detailed information, see the User Guide for the Polycom SoundPoint IP 450 Phone at:
www.polycom.com/support/voicedocumentation/
Using Do Not Disturb†
You can prevent your phone from ringing.

To enable or disable Do Not Disturb:
>> Press , and then select Features > Do Not Disturb.
When Do Not Disturb is enabled, and * flash on the screen.

Hosting Conference Calls‡

To host a conference:
1. Call the first party.
2. After the first party answers, press the Confrcn soft key. The active call is placed on hold.
3. Place a call to the second party.
4. When the second party answers, press the Confrcn soft key. All parties are now joined in the conference.

You can do the following:
• To put the conference on hold, press the Hold soft key. To resume the conference, press the Resume soft key.
• To end the conference, press the End Call soft key. The other parties remain connected.
• To split the conference into two calls on hold, press the Split soft key.

To add or edit a contact:
1. Press , and then select Features > Contact Directory.
2. To add a contact, press the Add soft key. To edit a contact, scroll to the contact, and then press the Edit soft key.
3. Add or edit the contact information. The only required field is the Contact field (the contact’s phone number).
4. Press the Save soft key.

To search for a contact:
1. Press , and then select Features > Contact Directory.
2. Press the Search soft key. Then, enter search criteria, and then press the Search soft key again.

Adjusting Speaker and Ringer Volume

To change the speaker volume:
>> During a call, press .

To change the ringer volume:
>> When the phone is in the idle state, press .

You can also prevent your phone from ringing (see Using Do Not Disturb), or you can choose a silent ring for your phone (see Updating Ring Tones).

Updating Ring Tones‡‡
You can change the incoming ring tone, as well as set distinct ring tones for contacts.

To change the incoming ring tone:
1. Press , and then select Settings > Basic > Ring Type.
2. Scroll to the ring type you want. To hear the ring type before you select it, press the Play soft key.
3. Press the Select soft key.

To set a ring tone for a contact:
1. Press , and then select Features > Contact Directory.
2. Search for the contact (see Updating Contact Directory).
3. Press the Edit soft key, and then scroll to Ring Type.

You can also prevent your phone from ringing (see Using Do Not Disturb), or you can choose a silent ring for your phone (see Updating Ring Tones).

Listening to Voice Mail††
A voice mail icon on the phone screen, a flashing line key, and a stutter dial tone in place of normal dial tone indicate one or more new voice mail messages.

Voice mail is a call platform dependant feature. Your system administrator sets up. Options may vary.

To listen to voice messages:
1. Press , and then select Message Center.
2. Press the Connect soft key, and then follow the voice prompts.

Viewing Call Lists
To view a call list:
>> Press , and then select Features > Call Lists > Missed Calls, Received Calls, or Placed Calls.
You can select a call from any list and do the following:
• To place a call, press the Dial soft key.
• To change the phone number before dialing, press the Edit soft key.
• To remove the call from the list, press the Clear soft key.
• To store the contact in your Contact Directory, press the Save soft key.
• To view information about the call, press the Info soft key.

CUSTOMIZING YOUR PHONE

Updating Contact Directory

To add or edit a contact:
1. Press , and then select Features > Contact Directory.
2. To add a contact, press the Add soft key. To edit a contact, scroll to the contact, and then press the Edit soft key.
3. Add or edit the contact information. The only required field is the Contact field (the contact’s phone number).
4. Press the Save soft key.

You can also add contacts to your Contact Directory from call lists (see Viewing Call Lists).

To search for a contact:
1. Press , and then select Features > Contact Directory.
2. Press the Search soft key. Then, enter search criteria, and then press the Search soft key again.

Adjusting Speaker and Ringer Volume

To change the speaker volume:
>> During a call, press .

To change the ringer volume:
>> When the phone is in the idle state, press .

You can also prevent your phone from ringing (see Using Do Not Disturb), or you can choose a silent ring for your phone (see Updating Ring Tones).

Updating Ring Tones‡‡
You can change the incoming ring tone, as well as set distinct ring tones for contacts.

To change the incoming ring tone:
1. Press , and then select Settings > Basic > Ring Type.
2. Scroll to the ring type you want. To hear the ring type before you select it, press the Play soft key.
3. Press the Select soft key.

To set a ring tone for a contact:
1. Press , and then select Features > Contact Directory.
2. Search for the contact (see Updating Contact Directory).
3. Press the Edit soft key, and then scroll to Ring Type.

You can also prevent your phone from ringing (see Using Do Not Disturb), or you can choose a silent ring for your phone (see Updating Ring Tones).

Using Headset Memory Mode
You can set up your phone so that all calls automatically go to your headset.

To use Headset Memory Mode:
1. Press , and then select Settings > Basic > Preferences > Headset > Headset Memory.
2. Scroll to Enabled, and then press the Select soft key.
3. Activate Headset Memory Mode by pressing twice. When Headset Memory Mode is activated, the headset icon, , displays on the screen.

All calls will now go to your headset, unless you switch to handset or speakerphone mode. To activate Headset Memory Mode again, repeat step 3.
To disable Headset Memory Mode, repeat steps 1 to 3, but select Disabled in step 2.
